Beyond Atacama

Six independent options to extend your trip. These are not six consecutive days of a single itinerary; each option has its own duration, logistics, meal arrangements, and specific conditions.

Your journey, step by step

Atacama-Uyuni · 3 days

A journey across the Bolivian Altiplano and the salt flats, spanning two nights and concluding in Uyuni. A return trip to San Pedro is not included by default.

Atacama-Uyuni · 4 days

An itinerary spanning three nights, including a return to San Pedro. On the day spent at the salt flats, the return journey begins, leading to an overnight stop before crossing the border the following day.

Monturaqui Crater

A trip via off-road tracks followed by a visit to observe the crater, with a meal provided en route. This is a one-day excursion; it does not include overnight accommodation, nor is the collection of crater fragments permitted.

The Far North

A multi-stage journey that can connect various towns, high-altitude salt flats, and northern Chile, extending as far as Arica. Extensions into Bolivia require a separate, dedicated program.

6,000-Meter Expedition

A progression of hikes and mountain ascents in preparation for an objective such as Pili or Aucanquilcha. The standard approach spans about ten days, tailored to the necessary preparation; it is not condensed into a three-to-five-day timeframe.

From Santiago to Atacama

A traverse through valleys, the coast, and the desert, concluding in San Pedro. The duration and activities are structured in stages; this is an extensive journey, not a direct transfer.
