PRIVATE EXPERIENCE / ENGLISH

Jorquencal

An ascent of Jorquencal, with the specific technical route determined for each group. This experience is offered based on Ernesto’s recommendations. The commercial equivalence to Toco does not imply identical distances, elevation gains, or conditions.

Your itinerary

Preparing for the objective.

We will discuss mountain experience, acclimatization, and dates. Before confirmation, you will be provided with the selected route, starting point, elevation gain, estimated hiking time, and required equipment.

Approach.

Access is organized according to the approved route and its associated permits. The guide will check equipment and establish the criteria for whether to continue or turn back.

Ascent and decision-making.

The day progresses at the group's pace, with ongoing assessments of altitude, available time, and weather conditions. The objective is adapted to the conditions; a successful summit is not guaranteed.

Descent and return.

The plan includes the descent and vehicle pickup. Logistics-such as booking times and contingency options-must be finalized before departure; they should not be treated as an improvised extension.

DURATION

Defined by the chosen route.

DISTANCE / ROUTE

Distance and elevation gain to be confirmed.

EFFORT

Mountain; preliminary assessment.

MEALS

Meals, water, and equipment are detailed in the specific mountain proposal.

TRANSPORT

Hotel pickup and drop-off in San Pedro (depending on location). Private transfers with stops coordinated by the guide.

PREPARATION

Do not book as a beginner-level hike without first assessing the group. Request the final technical specifications before confirming.
